The fabric is at Tropical and has been cleared. Tried to pick up on Thursday but roles wouldn't fit in F250. Will pick up first thing tomorrow. We have Soil Tac, have not applied yet. Been researching best method for our application.

Our big project tomorrow is to get the gravel down for the mechanical area. We have been focusing a great deal of effort in the masonry work (which takes more time than I would have ever thought) and projects that were in your areas. While you are here I would like to get back into painting the tunnel, along with the cleaning and organization. Shouldn't be a problem keeping the guys busy without being intrusive. I have them scheduled to work on Saturday, but if you would prefer not I can cancel.
