Thanks, but I don't think we need bother him. The reason I'd asked you because I had hoped for more support that what the commercial banks provide.

JPMorgan can give a secured loan against Facebook stock for 0% of value, and without as much paperwork since they have it in a custody account already.

The reason I'd sought extra capital and help is to grow my business faster than what I can do just by reinvesting my proceeds, but don't worry.

Best wishes,

Ian
