I have spoken to Megan at the Chicago Park Hyatt and confirmed your stay (suite and connecting room) I have asked her to put a fanboppy with you.  
Larry has organized a car from the airport to the hotel. I google mapped it and asked the hotel and both have said it is an approximately 25 - 30 minute drive.

The Neuro Consortium is at a different location, the Hyatt Center, 71 South Wacker Drive. The hotel has told me that it is a 10 minute taxi drive and taxis are readily available at the hotel.  
[REDACTED] please make sure that JE has his ID on him for the consortium. He uses his drivers license as ID which is in his wallet in his black bag.

Your food bag will be packed with all your favorite things, a french press and a shaker and fresh mint for the ginger
