Subject: Update

FYI

The Ranch is looking great overall, Steve, Amber and crew are doing a great job.

Confirming Inspection of RO and Discharge will occur Tuesday 10 am

I have a comprehensive proposal from western systems regarding the audio/electronic upgrades for Zorro. I will bring this with me as it is too large to email.

</div>
I should have something on Landscaping by Wednesday

=/div>
The laying of the Fiber I will keep researching other possible options

My main concern has been the library system at LSJ, Ken is looking into a new company (Drake Equipment) to provide solution.

I have been hounding him daily about this and have voice deep concern about the lack of progress. It seems the Engineer who came highly recommended, has just dropped off the face of the earth, very odd. !!!

Have also been doing computer software upgrades etc

Regards<=r clear="all">
