**Subject:** Midnight express bottom paint

Jeffrey,

Brice wanted the midnight express to have bottom paint applied in west palm= beach before shipping the boat to st thomas.

If you agree?, what color do you prefer the bottom color to be painted, col=r chart below?

Black / Dark BLue / light blue / RED / Teal / Green / Gray Thx Larry

Biocop TF was developed as an alternative to tin-based antifouling paints to protect against the harshest marine environments. Using the newest biocide technology, a revolutionary polymer binder system produces an engine-red

biocide release that leaves no harmful effects on the environment. The result is a multi-season self-polishing bottom paint that provides equivalent protection to tin-based formulas. Once limited to Mega Yachts only, Bio-TF is now legal for all size vessels! Biocop TF comes with a full One Year Manufacturers Warranty [against barnacle growth!](http://www.bottompaintstore.com/images/File/SeaHawkwarranty.pdf)  
30% Better Performance than Micron 66 by Interlux! <http://www.bottompaintstore.com/blog/bottom-paint-review/micron-66-by-interlux-vs-biocop-tf-by-sea-hawk/>
