Dear Jeffrey,

I am writing to ask if you have any connections up in the [REDACTED] area as I am moving there with my family and would like to continue my health coaching there. As you know, I have been a health specialist in [REDACTED] [REDACTED] for the last [REDACTED] years, with mostly celebrity clients, and those with your fast paced life.

Most of my clients have me clean up their lives and take care of all of their health, stress reduction, weight loss, sleep issues, and increased energy needs. Most do not have the time nor inclination to think about how to get themselves back on track, so I do all of the guess work for them. I always have amazing results and can give anyone references. As you know, I do not use a web sight and work by referrals only. I can send you something that was written about me and what I do, if you would like. I will include my photograph here.

With great appreciation, [REDACTED]
