Hi Igala

The shipment for Virgin Gorda has ben =oved/delayed to this coming week (shipping Friday) and the client =n St. Croix needs still to meet with Housing Authority to get their =pproval on my rain garden design which has allocated 2 containers full =f plants for them-- still on hold but not paid. The developer =oves the design and wants to purchase the plant but HA is the final =ecision and I am supposed to make a presentation on their behalf =o Housing Authority this week to have HA approve this design that uses =ore native plants rather than coconuts, bougainvillea and grass. =nbsp;

I am so sorry for these delays that are =ut of my control. Since I have the nursery still full of plants =nd it is so difficult to be definite still on the final number today, I =ave a suggestion-proposal for Mr. Epstein. =nbsp;

There will be left I think 3-5 =ontainers worth of plants depending on the fate of the St. Croix =roject but I would like to do is to immediately is to sell him, if we =gree on price, and send immediately, the first two containers of =lants that for sure are not sold nor promised to any one---all the =eagrapes, lignum vitae, Pticosperma palms, Pterocarpus trees, =erminalia catappa, Jaquinia arborea, etc. alone will fill at =east 2-3 containers. So ask him if he is prepared to receive a =lant list and invoice for what I want to send immediately and I can =stimate how many containers will be. If ST. Croix will not =appen, there will be two additional containers full of =rees.

You also need to tell him that I =o not offer 50% discounts. The price is what it is with a 15% discount =or him only if he purchase them all. If he expect half price I will not =ven start doing anything and I do not want to lose any additional time. = have other leads in ST. John to place them if he does not want them =or what they are =orth.

Regards  
Rossana
