Subject: Re:

Spoke with Digital projector contact Kristina Odom yesterday who is based out of Georgia. She said that the electronics to be installed to repair projector are currently backordered. They are having manufacturing issues due to Japan. The parts are sourced in Japan and are assembled in UK, then sent to GA to be tested. She requested parts to arrive in GA on May 18th. They will then be tested and sent out within 24 hours via FedEx. I will stay on top of Nick. Assuming parts arrive on requested date is it ok to have Nick return to LSJ week of May 23rd?

As far as 3D upgrade I have not yet received contact info however Nick sent note last week saying they would do a trade in for a New 3D 1080 Ultra Bright for \$18,135 which is Nick's cost. They also told Nick this is the last time they will offer any kind of trade in.

Please advise.
