MY TEXT CORRESPONDENCE WITH DALE GREGORY OF THE PORT AUTHORITY: Hi Dale - please, please let me know what is going on with the hangar. Thanks, Cecile ----- Please email me the update as soon as you can. I have heard nothing in the past three weeks. ----- Good morning Cecile, I met with the airport manager and our consultant on Tuesday and went over the proposed options. In general what was said: both options 1 and 2 will be difficult to get FAA's approval because of the loss of parking spaces and construction on a FAA funded apron after the hanger is constructed. They both feel that option 5 will get a quick approval. Also, if the firm is interested, we have several lots that are available on the St. Croix airport. I am available to meet any day but Wednesday next week. Dale
