This is the Cougar. Built in '78, it now has a Garmin 530, autopilot and new paint & interior. It looks nice. I would need a checkout (~2hrs with an instructor) but it is very similar to the Seminole so it should be no problem and I could take it anywhere in the country (with a 3hr/day minimum) It is available until the 25th, then it is booked for a week. Should I sign up for a block of time? How many hours?
