dear jeffrey,

i hope you're well. i just wanted to let you know that i'm in romania now and i will have a few meetings with some professors at the universities of craiova and bucharest. i'll let you know how these go.

also, i'm attaching the latest paper we've submitted: strategy selection in structured populations. it still doesn't deal with the issues that you raised (the results in it were produced before the visit to florida). but i thought you might like to take a look at it. as for the suggestions you made, i am carefully thinking about them over this break. i hope to have some results soon.
