We need to talk :)

Yes all objects have EM field

In Biological Organisms the EM field changes with emotional shifts I promise this is documented Your brain waves and heat EKG are part of this field We have published the effects of meditation with this with Eric Topol from Scripps (look him up) in Frontiers in Neuroscience Will send you the paper when I get to California Maybe we are speaking of different things ; I have 6 hours now on the flight to meditate - delicious !

No, no, no, there is also the same field around a pot of beef stew. And extends further if the smell is around the house.

Consciousness is referred to as a dimensionless field by some in that field - pun intended
The human biofield which is electromagnetic can be picked up about 8 feet around a person

The paper could have been great . It is not. The word FIELD &nbs=;dooms it. A field is an object in physics. A well defined object. That's not what you guys want. Maybe bio-cloud. Or something that does not immediately halt an amazing future
