Good afternoon boss

The sharing on Anna's apple TV must have been activated by accident, and since it is on LSJ network it would be detected by an iPad. Please note, that although sharing on the apple tv. It only indicates that the device is acceptable for sharing to. Meaning, the iPads control what is being shared to the apple tv. (Only the operator of the iPad can send music or movie to the TV). The Apple TV cannot control the iPad.

I will turn off that feature on Anna's apple tv so the iPads would not detect it or, if you prefer, I could remove the apple tv from her abana. I am fairly certain that she does not use it. I believe she mostly uses her Chromecast device.

Regards

JRuan
