I have not moved from my bed since this morning. I think they are going to fire me from my job. The only color I see is black, that's it. I fall asleep crying every night and wake up in the same way. I keep hoping all this is just a nightmare.

You told me that I needed a job so I got one, 300 euros is very little money but it is still something I earn and even this is not ok for you. You keep telling me to find one. I don't know what else you are expecting me to find. I'm not able to do the creative things I want to do. Karla Otto is not paid. Here, it's a miracle if they pay you 800 euros for a normal job. Even when I have a job, you still don't talk to me and I still can't see you so where do I find the motivation to continue?
