Greetings,

FYI:

John Markoff published 'Planes without Pilots' in the New York Times:

http://www.nytimes.com/2015/04/07/science/planes-without-pilots.html?nl=todaysheadlines&emc=edit_ae_20150406&_r=0

John based much of this article on reporting he did at the recent NASA 'Transitioning to Autonomy' workshop and during a brief visit inside the '2nd Gate' to N210.

Although there are some technical inaccuracies (which will motivate us to work more closely with our Public Affairs Office to improve our 'fact-checking' process :-), the article covers more of our work than usually appears in the popular press.

All the best.
