good.

Texting back and forth with Deepak earlier today. He and I are both interested in exploring paths to higher awareness. At IAS, I am working with Piet Hut on expanded awareness - we spend 2 hours each week walking in the woods there, reflecting on how humans can stand on the shoulders of groups of giants (or use machines and new concepts) to "see further" or probe more deeply. It you are interested too, perhaps we host something with a bunch of people on this subject? How about a day or two at your island?? or at Harvard/MIT? or Princeton IAS? Perhaps January or early spring?

evolutionary advantage to be self aware and what does that mean? a new notation for biology, we use mathematics to describe a process. that like music, does not lend itself to mathematics. it seems.

distributions of traits. the focus on the fitness of individuals seems limited, social animals are groups. time scales of life. do we only see things as living that fit into a narrow band of time. is the forest alive.?
