=/div>

Good afternoon Lesley,

Happy Holidays and I hope you're having a great New Year!

</=iv>

Can you ask Jeffrey to contact me? I'm not sure what he's decided to do at LSJ but we have a great idea to power the entire island using solar and his existing generators. It will be a true independent Micro-Grid backed up by WAPA. There will be no Line Loss because all power will be used or stored on site. We never got this far in our discussions last year and I feel it's time to get back to it. Please have him call me to talk about it.

Thanks,

Brannon Bloom

Good Afternoon Lesley,

I hope you a=e doing well!

While the electric rates keep going u= in the VI (WAPA applied for another rate hike today) solar continues to ge= better as an investment. We believe in making a change and doing something=about it. We're very eager for an update on Jeffrey's decision to make a st=atement on his island. We're looking forward to the positive impact that wou=d have on others who are considering taking action. Would you ask him to ca=l me to discuss his plans? I sure would appreciate it.
