Yes, let's do it. I like most of it. Would like less person=l attacks and more reasons why allegations are ridiculous.. </=iv>

Love the fact checking story. Just a few days ago, I toyed with the =dea of posting a photo of me doing a preflight inspection and saying I wis=ed other professions would have that requirement before putting innocent p=ople's lives at risk.

I only met Jeffrey Epstein, after I was adult. (over 18). I was never, ever, his " sex slave ". obviously a lurid chauvenistic categorization. which in my opinion could only have been made by some loser of a repressed male reporter. He was always kind , funny and generous to me . These fantasy fabrications made by a delusional thief. (charged with stealing from the burge= place and which she worked, though she claimed to paid thousands of=dollars in cash and held at the beck and call of the genius tycoon.=) . Her story telling had it been done while sleeping would have been call=d dreaming, if awake, hallucinations but to the English press they a=e referred to as allegations . She claimed in the minutest of detail=, her dinner with President Clinton on the Caribbean Island, How he a=rived . (by black heli). where he sat. ,(on jeffreys left.)&n=sp; a 21st century tale of power , sex , mon=y . The fact is that this story is total make believe , fabricated o= purpose to gain tabloid attention ,and easily refuted by readily av=ilalble travel records of a former president. . it defies bel=ef that any person would take seriously such a preposterous story. l=ttle different than her telling her father that she met the queen, whoops=-he believed her though her mother at the relevant time complained that she=must have been engaging in satan worship and asked that she be put her in = drug home. comon. I am currenty a professional pilot wit= a spotless record. I have a checklist that I follow before every fl=ght to verify that things are what they are supposed to be , checkin= her story which the press has refused to do would serve the public well.=In this case human error is merely a euphmism for hijacking the truth , &n=sp;
