Hi Joscha,

I think the idea is for me to try to give you an academic position at the Media Lab and for Martin to be the physical (and most of the mental) host. ;-) One thing that Martin and I need work out is whether this is part of a broader relationship between his lab and my lab. I've also been talking to Jeffrey about the possibility of doing something together. It makes everything much easier if it's part of a bigger thing, thus the delay.

Jeffrey, can we talk soon about this?

I'm not around the 13/14 but I am around on the 18th of Nov in Boston.
