Hi Jeffrey,

I left a catalog of tea sets and a few loose papers with Sarah yesterday. The catalog contains several unique, numbered pieces primarily made by Italian designers. One of the loose papers is an image of a bronze, gold washed, leather handled set that debuted this January in Milan. Tom Dixon is the designer. Below are links to more options. Some of the sets in the catalog and below are silver (per your last email, you are not a fan of silver), but I think meet the fun/young requirement and may be worth a glance. The first two links are of very interesting tea pots that unfortunately do not come with a complete set. If you like either, I will try to locate something similar.

Thanks,
