Jeffrey,

Officer Thurman from Immigration called me,. she told me the wood fac= with hair is ok for me to pick up, however, Thurman found "one" noxious item on the rug she wants to send for testing to=20 clarify what it is, this will be at our expense, and if found hazardous she will have to export the rug, at our expense,. or no tes=ing and just export the rug,. how should we proceed? also CM called me=just now, and said that she was filing crew decorations and found my name=in today's arrivals, strange? not sure if she was working when we arrived,&nb=p;but she just called me,, so she is aware of this issue, she said it= out of her hands,.

thx,
Larry
