**Subject:** Banquette

Jeffrey,  
Good morning.

Below are several links for banquette ideas.  
All of these can be made with higher backs and either with or without legs.  
I spoke to my upholsterer about this being 10' long and he suggested a tight seat if you don't want sagging in the seat cushion but it can be done as a loose cushion too. Seams will depend on the fabric width and whether it can be airloaded.

I will look for other examples and  
I plan on shopping for the fabric this afternoon.  
Gregory
