Subject: Re:

Hello Jeffrey! I didnt know that you write me here. I have my internet now and never see you online in skype. I found tiles for you but the firm wants to know exact plan of the building to make suggestions either to speak with some of your people by skype and make an order. their work is really different. When will you visit our country? I missed you so much I want to see you if possible.

Concerning the bank account, it is better and easier to do western union, because here it will take a long time and commisions for taking cash will be as more as the questions about where are the money from.

this is how it usually goes in our country. Western Union gives you money the same minute as somebody sends it. I will just go to the centre and receive it with passport and special number sent to me. you can do it either in your centre or online from the card here <https://wumt.westernunion.com/WUCOMWEB/registerPersonalInfo.do?method=load>

Thank you in advance Jeffrey, I miss you like hell and New York is something else in my memory.

Take care
