OK, but you don't really answer my =uestion :

I understand the 65" for your =edroom + Wireless HDMI

For the other screens, =o we do the same, or use old analog cables, or put B&O TV with =luray dvd
included

Thanks for your =nswer

- quality)
1. We change the TV and DVD, but we still use analog cable =it will still be good
 2. We use B&O =V with bluray dvd included. Yes it is more expensive than other, but =ore beautiful too. Everything in one box. Only one remote control. =4000 € / each 40" inches. For your bedroom we could go up =o 55 inches if you =ant.

Hi Philippe,
Jeffrey's comments are as follows:

"no sonos in guest rooms,.. use only mac for music storage, no server.. why can we not run new cables? we will need to hear the new speakers but sounds like a good idea"

Dear [REDACTED]

We went to Mr Eptein's apartment last week and made a complete overview of the system.

Before finalizing the estimate we would have a few questions, could you please transmit them to Mr Eptsein.

Music

Sonos system is really the best because it can work wireless. We counted all the zone where you already had an audio access keypad. But in some bedrooms there are small hifi systems.

Do you also want to replace them by sonos. Or maybe later =

Do we use the music stored on your mac (it means it has to be on to listen to music, or do we propose a standalone server (1500 €) =

For the speakers, the small JBL that are on the floor in the living room and office look very small for those rooms. Would you like us to propose floor standing speaker (like B&O, because good sound and good looking)

Home theatre

Since we can't run any new cable we'll try Wireless HDMI on the new projector. So we will also have to change : DVD, Receiver, Screen (for a 6/9)

We'll use your iPad to control it

No question about the home theatre

Guest =edrooms + Master

Cables =etween TV and DVD are poor. Impossible to run new cables so 2 options
