Bryce,

I apologize for not having more luck with restoring t=e Pool-Pak last night but I feel we have deeper issues at play hear. It is m= opinion that we may want to stop working on this component and instead get=Beaudin Ganze engineering in to find out why this keeps happening. As you know I have already had this f=rm come out on site and do preliminary investigations on this system and th=y feel that we have some issues with the HVAC to the pool room in general. I=have also had Crest Mechanical come out, the original Pool-pak vender, and they also agree that we may nee= to replace the unit and modify the system to some extent.

JBH is committed to ensuring you end up with the best=possible solution and feel any more money spent on the Pool-pak may be mone= wasted.

I hope this does not create any problems for you but a=ain I want to do the right thing for you and feel engineering may fix this i=sue for the long run.

Thank you for allowing us the opportunity to work with you and please let me know if you need anything.

Jim Ed Baylor-Eichhorst
