Hi Jeff

They work in 70GHz. Very directional. Quite exotic band. I will let the PhDs explain to us.

Hi Jeff

Dr. Levite presented the science to me in much more details. Couldn't see a product they don't have it yet. But they're leading experts on advanced radars. Made sci-fi like achievements in military products.

If you agree, I will send Udi to negotiate better financial terms with them. Based on the same construct we used in Reporty. You or Darren, and me will be updated along the way. Then, based on what he can get we will make the final decision.

Do you agree?

Looking forward.
