Josh the rep was going to look at servicing history of our machine and age as he did not want us to spend money if it can be serviced

Hi Richard,

The AD-285 is most like your older Maytag MDG30. This model is a bit longer and the exhaust is through the top of the machine.

The other model is Maytag's MDG35PN. It's a newer type of dryer that would require more frequent cleaning of the lint tray. The older models had a bigger lint drawer.

Both are made at the same factory.

Josh
