Dear Rich,

Following our phone discussion =ith Mr. Epstein, I would like to inform that before we send somebody to =SVI, we ask you to carry out the following activities:

1. Please =end a picture of the boat laying on the water taken from the side - so =e see the trim of the boat
2. Please check if the bilge plug (in the =owest point of the transom) is correctly fitted - that there is no =ater ingress
3. As I understood, the boat is making noise even when =t is not cruising?
4. I also understood that you had covered the =ntrance to the bow compartment in order to check if the sound =ifference?
5. Please send the model of Yamaha engines mounted on the =oat

If the video's sent by you few days ago give the actual =ound reception, then this sound is not untypical for a RIB cabin =oat.

However in order to soundproof the cabin, we suggest to cover =he place where you stand in the bow compartment with a foam block and =dditionally mount a door at the entrance.

Best regards
Adam Zygowski
