Subject: Re: what am supposed to see?? pests/ fertizer?

Greetings Sir,

This is a photo I took on 8/31/15 during the walk through. It was labeled "Bougainvillea and Oeander - boost growth with granular food". I thought I understood when we passed that area that the bougainvillea were not blooming as they should and the discussion was that fertilizer in a granular form was called for. It was meant to remind the landscaping crew - they were given a printout of this photo.

I apologize for the misunderstanding it caused you.

Respectfully, Daphne
