I saw David Fiszel last night and he mentioned space x as a private company he is trying to secure shares in for his fund and other coinvests. He is hoping to purchase 10,000,000 from an early investor in space x of which he would allocate 2mm to his fund and have approximately 8mm for others. Pricing and terms are not yet known. It appears Peter Thiel was an early investor in space x. If you have interest I can have David meet with you to provide more details. Please advise. Thank you.
