Hi =yla,

I received the attached info from the Capt. and =anted to share the yachts schedule with you so you can see how much =ime the yacht normally spends in Ft. =auderdale.

The owners are an elderly couple =amp; their next cruise is only planned to start in March 2017 - It's = dream =

msg

We managed to get a special rate under the sheds for August =nd September and then will come out of the water (under Cover) in =ctober. We should go back in the water sometime in November and =ill go in the Basin till it's time to head back to the marina. =nbsp;You will probably do that after sea trials, but really you can =tay in LMC as long as you want. It will be up to you. First =ruise will be mid to late March in the =ahamas

Hi Myla,

I hope you had a safe flight & didn't =ave any problems with immigration at FLL

We didn't get a chance to discuss the new =. Stew position again before your left but I will need to reply to the =aptain's email tomorrow so chat with Sunami & let me know your =houghts

The Capt has been holding the C. Stew =osition open based on my recommendations but I will need to froward =our CV to him for review

I think it will be a great opportunity as =e will finally be based in Ft. Lauderdale & able to spend more time =ith our families - Once we get established onboard, I will try to bring =hil in whenever possible (part time / full time)

Dave

Msg

I hope all is going well on your =harter. Do you know if the person you had in mind for the Ch Stew =osition is still interested?   If she is then perhaps you =ould send me her email. If you can have her send it to you first =nd then forward it so we do not have a commotion on this end if the =ord gets out and we end up with lots of CV's for a job that is not yet =n the market.

=
