Hello Myla,

You must be really busy, so I think you received my email with the quote, if not let me know!

Could you send us a picture from the aftdeck we did last year when it is set up? And can I use it for our website?

After 5 years that the sit has been build we are now finally putting in the text, and pictures!

Hope you all are well, my (work) holiday is almost finished. Then returning home here storm Erika not even caused one drip of water, we have been lucky!!

See you soon, Risje
