Dave,

Just filed your paperwork, couple of points

* When you receive amendments or your SMM, don't send the old pages back just bin them at your end

* Permits to Work or Diving. When you are diving on the Hull, use ISM 24. ISM 24a is purely recreational diving. Also, no need to send me a copy, they are or filing on board

* I don't need the ALC2 (List of Crew). This just needs to be kept with the LB

* I don't need copy of the SSAS Log as it originates from here

* I don't need copy of the Passage Plans. They just need filing on board

* I don't need Bunker Check Lists

* I don't need the Admiralty Digital Publications update

* =nbsp; You produced a Declaration of =ecurity in Cannes on 3 Aug. Did the port ask for this. It is not =ormally a requirement when ship and port are both at SL1. Also these =re to be filed in your Security Log only

Kind =egards
