Hi Myla,

Good to hear from you, TM arrived safe in Nice having completed the 4,000 nm journey from St. Martin in just under 12 days

I worked every day on the Charter / boat accounts & finally managed to get everything finished one day before arrival

We have arranged for an MCA H & H instructor to come onboard in Nice 09/06/2015 & complete the course - We have delayed the start of the course until 13:00 hrs so that you can join in & complete the certificate - It will be a long day for you but this may be the only opportunity to get the course finished before the charter season starts

Travel safe & we will see you in Nice

Call on my US cell before leaving the airport in Nice as I may be able to pick you up

See you soon
Dave

Hi Dave,

Hope all is well. The maritime school here told me that they can't give me the certificate they want me to take the 5 day course which is I don't have that much time and I ask for on appearance and they ask me to pay P 26,000 Philippine peso \$600 and they told me that I can't take the certificate with me they want to send it by mail . I think it's better to take the course when I get back in France .

Check the invoice from shore support all the drinks and domestic stuff are correct =

See you soon

Best regards
Myla

Hi Myla,

I hope all is well & you have been enjoying your belated "Honeymoon" in the Philippines with Phil :)

Te Manu is making good east bound progress in the Mediterranean (ETA Nice =6/6/2015)

Please advise if you have had any luck completing your H & H course in the Philippines =

If you have not been able to complete the course there may be a chance for you to take the course in Nice before the charter starts but we will need to book the course dates asap to let me know

Be Happy - You & Phil chose a good crossing to miss - Weather has been horrible =!

Cheers

David

Hi Myla, Phil,

I hope all is well in Manilla & you have been enjoying spending time with your family

All's well aboard TM as we continue to make good east bound progress en route Gibraltar

I forwarded the following email to Simon & he is going to try & completed the H & H certificate before re joining in Nice

Please advise if you have been able to book yourself into the short (H & H) course whilst home in the Philippines =nbsp;

Message Sent:

We have dockage booking in Nice for arrival 07/06/2015 but we also have weather ahead which may cause delays from Gib

The Health & Hygiene inspections prior to departure from SXM was successful & Cert's issued but the inspector advised that crew H & H cert's are only valid for 5 year max)

PSC are active in the Med & will definitely take issues if the chef & C. Stew's H & H cert have expired which will likely be a "Show Stopper" for further charter activity until resolved

Myla will complete her H & H cert in the Philippines before returning to work

To avoid issues, please check the maritime schools in SOF & see if you can complete the short course before the start of the charter season

Missing you both

Cheers

Dave
