It s yacht Te Manu, th=y are at fort louis!

Myla is the chief stewardess, I cc her.

Myla, Diane might want to use the same fabric on her yacht we covered your settees with on the aft deck last year. Could she come and see one or two in place to see how it looks and could you let her know if you think they are practical in maintenance. Any comments from your guests about them being comfortable or not so etc..

Thanks if it is possible!

• Risje,

I may take a new direction with the aft seating. I may go with some neutrals and we can add accent colors with pillows along the bench.

and come later with my son? Is it going to be hard on time if I come back Tuesday to pick alternatives or should I try

Thanks

Hello Diana,

Sorry I didn't get the time to reply earlier. I think the top one is nicer too, the other one is a bit too stripy probably. It is a good idea to add some color, I'll check a few materials tomorrow. Do I understand you want to add a small pillow to the seat and backrest of the chairs? Nice for the looks, but maybe not very practical?

I'll send you some pictures of yellow/gold materials tomorrow, ok?

Risje,

I wanted to see if you received below.

Let me know your thoughts. I would like to finalize this before the holiday weekend.

If we went with green strip fabric, with tan matching=backing. We would need to add in the cost to do some pillows, however you think would look best. As I mentioned below, I would like to add a yellow/gold color pillow.

Standing by for your thoughts.

Thanks

Diana

Risje,

I am still trying to figure out what option we are going with. Daphne and I like the Wheat Vintage, Jeff doesn't and at the end of the day, would like him to be happy on the boat for the few times we ever do go on. So, I have a call with Daphne, but I was thinking IF I do go with one of the greens, maybe we can do, yellow/gold lumber pillow for the back bench and little ones for the chairs? This way we can add a pop of color and tie it into the hat on the logo.

What do you think? Which Option do you think is a warmer feel? I am thinking the top one in the attached?

Standing by for your design thoughts :)

Risje,

Before I potentially order this material from Canada, can you double check the number code, so we make sure I am ordering the right one.

The code they have online is 4968.
