thank you very much for the concern, M=s. Black, but we personally know the ophthalmologist seeing him and he is =ne of the best in his field in our country. If something serious arise, an= I hope not I will surely ask for your help. Regarding my flight back to N=w York, I`m trying to book my flight on the 26th of January, however= the costumer representative of Delta Airlines told me otherwise. The earliest schedule that I can get is on the=31st of January, 2011, but she assured me that I will be notified if cance=ation is made earlier than the 31st. Thank you very much for understan=ing.

Sincerely yours,  
Myla

Hi Myla:

Happy New Year. I am sorry to hear abou= you and your son. I also have had extensive eye problems and understand h=w serious it can be. My doctor n New York, Dr. Stanley Chang, is the leade= in retinal issues and I can ask him for a recommendation in Manila since =e lectures around the world. Hopefully, it will heal with time but you are=right to be vigilant. Please feel free to contact me if you would like me =o ask Dr Chang for a recommendation. We miss you and hope all goes well. <=r>DRB

<td valign="top" style="font:inherit;">hi mrs. black, how are you? h=pe everything's okay.i just like to inform you that my son and i had a acc=dent few days ago.I suffered from minor bruises and hematoma while my son =ot a more serious problem .The ophthalmologist told me he had corneal lace=ation with extension to his retina, and he is worried that might lead to g=oucoma. In time with this i am extending my stay until jan. 26 to take car= of him because his vision is still blurred.sorry for the inconvenience th=t it might have caused you.

thank you very,very much fo= your concern.

sincerly yours,

myla t.
