[redacted] <[redacted]> > RE: LSJ design
sketches

Ok.B We can raise the ceiling height in the living room.B A couple of questions:

B7 BBBB BBBB

How low can we drop the floor elevation of the living room below +59b?

B7 BBBB BBBB

Do you have a preferred elevation from what we sent?

B7 BBBB BBBB

We canbt lower the pool ceiling height too much and fit in the mezzanine access, but we could lower the whole thing.

Please send us comments on this, and we can update the layout to reflect it.

Thanks,
Warwick
B

design sketches

B

Warwick , Tom has all the dimensions of the living room . These are not those. Please
copy Santa Fe . 20 ft ceilings in living . Height more important there than pool . Doors
on east end match west end. Gallery height no more than 12 .
Stairs to mezz cannot be in the center of poolB
Sorry for all the typos .Sent from my iPhone

Jeffrey,
Attached please find some sketches based on what you and Tom reviewed at the
Island last week.
