Jeffrey,
We can use the AAG money to pay for the S76 charter if you approve: total \$11,724.00 or Darren's Bell 430 at \$3,600.00 and I fly co-pilot with heli staying at the landing sight, we pay for Bell.
Bell 430 or S76?
please advise so I can reserve?
thanks
Larry

Hello Larry,

Sorry about the delay in getting back to you.

I can confirm that you will receive a 10% discount and we also will be offering you our operator rate of \$5150 instead of the retail rate as was mentioned is in your contract.

The flight time will be approximately $1.2 \times \$5150 = \6180 less 10% discount = \$5562, plus the landing fees of approximately \$300. The approximate total for each trip will be \$5862/trip. Please note that if on the later trip you land at East 34th St after 1900 they charge an additional off ops fee of \$400.

As we discussed the two trips will have to be done by two separate helicopters because of the duty day so the approximate combined total for the day will be approximately \$11,724. The final billed will be based upon the actual flight time.

If you have any questions please call.

Thank you,
Kelly
