My frustration was that even with the little time you had available for us to interact, you chose to watch movies with [REDACTED] for hours every night, after already spending the whole day with her in the office, instead of calling me to have fun on skype, talk or watch the movie with me through skype...anything, to keep a connection alive. And then you did the same with [REDACTED] and [REDACTED]. (Spending hours teaching [REDACTED] new things, offering to buy her properties, playing, being affectionate and giving most of your free time to her...all of which I only learned by hearing how much it annoyed everyone else in the office - and these people were not in a relationship with you to have an emotional reason to be upset by it...so it must have been quite conspicuous)
