See attached 3d views showing stone veneer on columns at varying heights.
Let me know what you think
thanks
Bob

Bob

Jeffrey likes option two.
Would you show the col's with a stone veneer and two additional options with stone bases,
partial height 1/2,1/3? or what you think looks best.
please copy Jeffrey and me
Gary

Just to be clear what I will be modeling- - 22 has square columns and no detail along the arch; 37 has round columns with trim detail around the arch (similar to the Cuban elegance image).

Thanks
Bob

I created a powerpoint presentation of all the images which will allow quick scrolling. Look for 'ARCHES.pptx' in the same 'Arches' folder.

Let me know if you have any problems with the file

Thanks
Bob

Jeffrey-

I've uploaded a folder with arch images onto our ftp site.

Access by right clicking 'start', select 'explore', and copy/paste the address below into address bar.

Images are in a folder called 'Arch images'.

Images are arches from Cuba, Puerto Rico, and Italy.
