I think you need to stress that hollywood is really about legends both in film and on foot..I think Andrew will get a leg up, if you are not careful as the fags stick together, however, the younger crowd still loves , nicholson streep, denzel. you need to represnet the classic hollywood and leave the fadish trash to the hershey highwayman

Instead of calling you in a panic about this nasty fag who has tried to steal my business for two years...I am thinking about a way -besides working harder (impossible) and doing a great job and being very nice to people.....to compete with him...

I need to do something like small dinners for filmmakers and the studio people who hire me that are totally personal...very chic, smart and not a public event...and build up personal relationships...which I have been doing...but have to figure out a way to out maneuver Andrew. He is liked in gay scene...that's it. He really is a creepy guy with public hair on his head who is doopy and a social wannabe...not a reall supporter of films...
Sooo annoying...but I will think about a way to kill them all with kindness.

Had "The Road" last night and meeting with Harvey at 9:30am back downtown with rebecca miller who has a new film and her husband Daniel day lewis walked in and gave Harvey a cheap plastic razor....very funny but I am too smart to plant in press.
