Hey Jeffrey

How are you doing? You've been on my mind lately and I was curious so I googled you, I read some of the articles about your prosecution and I felt so weirded out, it's the first time ever that I've tried to learn more about you other than what you have included me in, IT WAS LIKE BEING ON THE OUTSIDE LOOKING IN AND BEING ON THE INSIDE LOOKING OUT! I was a little freaked out to find out what some of the girls said about the situation, some things I could relate to but mostly I think I still know you to a certain extent and I still cherish that nurturing (your seedling) presence in my life at the time.

Your life and your intention are for you to determine, from an external perspective I seem to feel like you're chasing some high especially as far as your tendency's toward women is concerned. I'm sorry if you're offended by my references to a difficult situation in your life, I just feel like I need you to be aware that I have mixed feelings about my time spent with you and that I have been marked by you in a way that affects all subsequent relationships.

ARE YOU SIGNED UP FOR SKYPE? We could chat some time especially since I don't think I can visit before October or November, I'm travelling around Europe for four months as of May.

Please let me know how you are.

Love,

Francis

PS: My mobile phone was lost in a robbery and I lost all your contact details, if you want please forward them to me.

TAKE CARE
