Jeffrey,

In the interest of maintaining our team of consultants consistent for both the House Expansion and for the Hammam, I have contacted Warwick Wicksman at Gensler to ask if Gensler and their consultants would be interested in working with Hasan Khan to produce the Design Development and Construction Sets, which Hasan and Andrew are not able to do on their own.

Gensler has done such collaboration and is interested.

May I forward to Gensler the latest Hammam design drawings and request a proposal for this work?

Regards,

Silvina
