Darren,

Since Harris did not comment or include pricing about "standard features" , do you think it is "safe" to assume they are included?

I have attached a copy of standard features found on midnight express web sight, since 11 items where not included on Harris's exhibit 1 of spec sheet.

If you and JE approve I would like Emad to clarify the following: Harris mentioned in exhibit 1 - "Full Coaming Boster w/PVC backing", he priced the dual bolster seats at \$7,898 each, I would install two, one at drivers station and one directly behind driver. It appears we are getting one bolster already.

*** lets make sure the bow thruster is included in specs, since the revised price (\$118,820.00 reflects that addition).

Jeffrey do you approve of Emad contacting Harris to negotiate the prices of additional items we require?

thank you.
