Hi Chris - thanks for your email - Looking forward to meeting you here in Boston. Our summer interns are starting June 1-8. Housing help may be available via Harvard, Harvard Med, Boston Univ, MIT, Northeastern Student Affairs offices - likely to be many sublets available as many off-campus students vacate for the summer. Can also check on-line at zillow.com and other resources for rentals. Ideally, you would be with us 40-50 hrs/wk for 10-12 weeks. There are more projects to do than I have time to tell you - clinical research and library/writing/publishing in one of multiple topics for each student. Please let me know if/when you might arrive. If you check out The Institute's eLibrary and other pages, you can get an idea of what we're working on. Best regards to Don - Mark Tramo MD PhD

Dr. Tramo,

I received an email from Dr. Bivins stating that I could contact you at this email address with regards to spending some time in your lab or clinic this summer. When I went to him to tell him what I was interested in I was so pumped to hear about your work and also to hear that it IS possible to incorporate my passion for music into medicine! I didn't know if you had any open slots in terms of being able to spend some time working with you or what your schedule was this summer, but I wanted you to know that I'm VERY interested in all of the work you guys are doing and would love to help out. If you would like any information from me or have any questions I'd be happy to answer them. I hope everything is well up in Boston, and I look forward to hearing from. Thanks again for everything!
