you have to choose the fixtures,, NOT JANUSCH and igor.. ,, we also have to be able to light the water in case of emergency,,(ie, halogens:)

Dear Jeffrey, The electrical outlets to supply power for future lighting were positioned around the property at the time the large tree lights were installed. Two blanked off outlets were installed at the seawall along the dock for future lighting. Any type of lighting can be connected to these outlets, the simplest might be the same Home Depot small cone light that is used at LSJ and used to be at PB. The statue at the end of the swimming pool and some smaller plantings may also be lighted. (none of the old fixtures at PB were able to be salvaged)
Regards, Doug
