This is the general quote from Bestcom. They install the ESI phones. Would you like me to schedule them to visit the PB house to do a survey and give us a true quote?

Subject: Telephone system quote

Story,

Thankyou for taking the time to learn a little bit more about the ESI phone system.

Attached is a quote and brochure based on our conversation. I think the next step would be to meet the client and confirm any additional options that are needed. ESI has added quite a few enhancements in the last year or two. I can also bring a live demo of the system as well.

My contact information is below. Please let me know if you have any additional questions.

Regards,

Debbie Urso
