**Subject:** Re: Rocks/ Coconuts

photos are cheap,,please send many as opposed to one. which gives some information , but certainly not enough,, at the top of pops garden have someone, lay a dry stack road between the top level of the garden and the road, it should be straight across, and follow th tape line that we laid.

Good Afternoon,

A few days ago I sent you an email, regarding the rocks at the end of the beach, I am resending that email, along with a picture.

When you have a chance please advise.

In regard to the rocks below the library/study on the point, please review the photos, and advise what you want;

- to go up another two levels of rocks to cover the eroded dirt, by the bottom of the stone wall.

- leave them like that and add dirt, in which plants can be planted?

Either way we will plant the three coconut trees in front of the stones and then plant vines/"creepers" once we are finished to your liking.

Give Thanks,

Igala
