Dear [REDACTED]

The price of the original desk (BURE 5B DPG) we sent to you is 18 000€ and the desk is still available.

The model we propose to Jeffrey, which seems quite similar, is actually totally adapted to his needs and has only his shape.

The new model has (not visible):

- 1- a double tray for all the wire guides.
- 2- Three sophisticated storages for the documents
- 3- a specific lighting system
- 4- The home automation for the keyboard, blackberry and the screen
- 5- Integrated Control system
- 6- Unique Handles, specially created for Jeffrey Epstein.
- 7- Spacer connecting drawers
- 8- The last silent and self close slides

This desk should provide an optimum space, efficient storage and workstation comfort.

All the research and technical specificities are realized only for your one piece.

This model will be produced as an unique masterpiece numerated 1/1 and signed.

We took this opportunity to let you know that Mister Gaguech will be in New York from the 10th to the 15th of May.

Could you let you know also your comments on those project in New York.
