Hi Philippe,
Just checking in to see when we can expect to receive a quote from you to do the suggested work at Mr Epsteins apartment.
Thank you,
Sarah

OK, but you don't really answer my question :

I understand the 65" for your bedroom + Wireless HDMI

For the other screens, do we do the same, or use old analog cables, or put B&O TV with bluray dvd included

Thanks for your answer

1. We change the TV and DVD, but we still use analog cable (it will still be good quality)
2. We use wireless HDMI transmitter (approx 1000€), I think it worth it for home theatre, but maybe not for guests bedroom
3. We use B&O TV with bluray dvd included. Yes it is more expensive than other, but more beautiful too. Everything in one box. Only one remote control. 14000 € / each 40'' inches. For your bedroom we could go up to 55 inches if you want.

Hi Philippe,
Jeffrey's comments are as
follows:

"no sonos in guest rooms,.. use only mac for music storage, no
server.. why can we not run
new cables? I will need to hear
the new speakers but sounds
like a good idea"

Dear Sarah,

We went to Mr
Eptein's
apartment last
week and made a
complete
overview of the
system.

Before finalizing the estimate we would have a few question, could you please transmit them to Mr Eptsein.

Music

Sonos system is really the best because it can work wireless. We counted all the zone where you already had an audio access keypad. But in some bedrooms there are small hifi systems.

Do you also want to replace them by sonos. Or maybe later ?

Do we use the music stored on you mac (it means it has to be on to listen to music, or do we propose a standalone server (1500 €) ?

For the speakers, the small JBL that are on the floor in the living room and office look very small for those rooms. Would you like us to propose Floor standing speaker (like

B&O, because
good sound and
good looking)

Home Theatre

Since we can't
run any new
cable we'll try
Wireless HDMI on
the new
projector. So we
will also have
to change : DVD,
Receiver, Screen
(for a 16/9)
We'll use your
ipad to control
It

No question
about the home
theatre

**Guest bedrooms +
Master**

Cables between
TV and DVD are
poor. Impossible
to run new
cables so 2
options :

1. We change
the TV and
DVD, but
we still
use analog
cable (it
will still
be good
quality)
2. We use
wireless
HDMI
transmitter (approx
1000€), I

think it
worth it
for home
theatre,
but maybe
not for
guests
bedroom

3. We use B&O
TV with
bluray dvd
included.
Yes it is
more
expensive
than
other, but
more
beautiful
too.
Everything
in one
box. Only
one remote
control.
14000 € /
each 40''
inches.
For your
bedroom we
could go
up to 55
inches if
you want.

Let me know what
you prefer

Thank you for
your answers it
will allow me to
finish the

estimate

Best regards
